

IMPORTANT INFORMATION

Your Card Member Agreement governs the use of your card in Amex Pay.

Security

Once your card is activated, you must keep your device and security credentials safe and secure at all times – in the same way you would your actual card or PIN. Never share your device security credentials or allow another person to register their fingerprint to your device, as that person will be able to make payments using your card. If you do allow someone access, you will be responsible for their use of your card. You must always use the device lock feature on your mobile device.

For more information about safety and security, visit www.americanexpress.com/uk/mobile.

Unauthorised Use & Lost/Stolen Devices

Call us immediately using the number on the back of your card if your device has been lost, stolen or compromised in any way. We can suspend or remove your card from Amex Pay to prevent further charges.

Privacy & Personal Information

We collect information about you and your device (such as device type, operating system and location preferences) to manage your use of Amex Pay, present you with updates and to display targeted offers and advertising from time to time. We always use your information in accordance with the terms of your Card Member Agreement and the [American Express Online Privacy Statement](#).
